20. Ecoplastic model 12 sensorset in black recycled plastic with back rest and arm rests x 3hr
21. Ecoplastic model 204 front opening litter bin in black recycled plastic

Play Area:

The play area measures 455 square metres, including the 5m x 3m approach pathway linking to the existing pathway.

Safety Surfacing:

Garden Escapes resin-bound rubber mulch surfacing, natural and green coloured mix, is to be installed to the entire play area site and approach pathway as shown.

Surfacing thickness will vary to meet the free fall heights requirements of each piece of play equipment, as per current EN1176 & 1177 safety standards.

The colour scheme(s) and/or theme(s) shown on the drawings are for illustration purposes only and can be amended to reflect any desirable colour scheme or theme as required.

Remaining Surfacing:

All remaining areas will remain in their current condition, with any disturbed areas being reinstated on completion.

Fencing:

1.2m high safety wattle mesh fencing, galvanised and powdercoated green, will be installed to the perimeter of the play area as shown.

One double leaf vehicular maintenance gate (one leaf to be a self-closing pedestrian gate for daily use) will be installed as shown, this will be galvanised and powdercoated in a contrasting yellow or red colour to enhance visibility of the ingress and egress points for visually impaired users.
